ACAA Category U (Utility) Membership Dues Calculation Worksheet

Example MegaWatt Calculation

Station/Plant Name	Location (City & State)	Coal-fired Total Net MegaWatts	Applicant's Percent Ownership	Net MegaWatt Owned
Plant A	Somewhere, IL	1751	100.0%	1751
Plant B	Somewhere Else, IL	450	13.8%	62
Plant C	New Place, MO	275	51.0%	140
			Total:	1953

Your MegaWatt Calculations

Station/Plant Name	Location (City & State)	Coal-fired Total Net MegaWatts	Applicant's Percent Ownership	Net MegaWatt Owned

Dues Calculation:

ACAA Category U (Utility) membership dues are calculated based on the total number of applicant's owned coal-fired megawatts multiplied by $4.00. Minimum dues levels are $1,650 for non-voting status and $3,300 for voting status. 1st year prorated/discounted dues regardless of prorated period cannot be less than these amounts. Prorated/discounted dues between $1.650 and $3,300 equal non-voting status. Prorated/discounted dues equal to or greater than $3,300 equal automatic voting status. Subsequent year's dues equal owned, coal-fired megawatts times $4.00 ($15,000 max) or as calculated but no less than $1,650.

1st Year Dues Calculation:				
Net MW Owned X $4.00*	/ 12 Months	X Months Prorated or 12 whichever is less	= Calculated 1st Year Dues**	X 50% Discount
$	$	$	$	$

Utility MW Adjustment Calculations:			Voting Status		
Changed Net MW Owned X $4.00*	Enter voting Adjustment Amount if Applicable**	Dues Owed: Enter adjusted dues amount if applicable, otherwise MWs X $4.00 = New Dues Amount	Check if Voting Status is desired	Check if Non-voting Status is desired	
$	$	$			

* If greater than $15,000, enter $15,000

** For non-voting status, if less than $1,650, minimum dues = $1,650; For voting status, if calculation is less than $3,300, minimum dues = $3,300. Calculated amounts more than $1,650 and less than $3,300 = non-voting status.

*** Amount entered here will be amount entered on next dues invoice
